

STS232

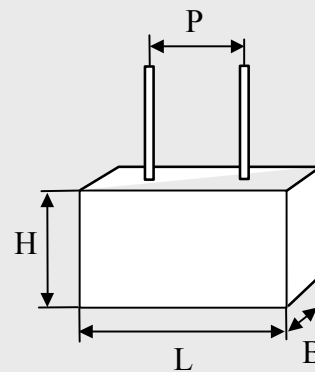

Automatic Welding / Assembling for Medium Size Box Capacitors

MAIN FEATURES

- Stand-alone welding machine for flat capacitor elements of medium size $P = 10$ to 27.5 mm
- Operating assemblies are mainly mechanically operated to achieve best reliability
- Three configurations are possible:
 - Only welding
 - Welding + box assembling
 - Welding + box assembling + finishing with filling and curing operations
- Optional: dosing-mixing-pouring unit and other.

PRODUCT

Dimensions

P	10	to	27.5	mm
B	4	to	14	mm
H	9	to	28	mm
L	13	to	32	mm
