Ver.1.2

Disclaimer:

Warning - You will have the capability to access Corporate systems which include Business Confidential Information. Unauthorized disclosure or other misuse of this information could result in disciplinary action, including termination and prosecution. By proceeding with following these instructions, you agree to these terms.

1.1 Logging into SSL

In order to connect to the KEMET SSL VPN Virtual Desktop, you must first connect to KEMET SSL and authenticate through the VPN tunnel.

1.1.1 Authenticate to KEMET SSL

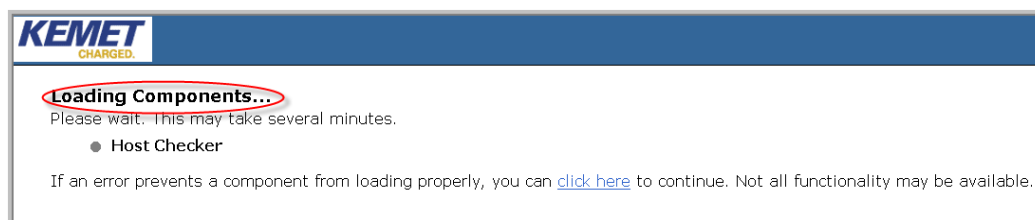

Launch Internet Explorer and enter the following URL

<http://employee.kemet.com/mfgrep>

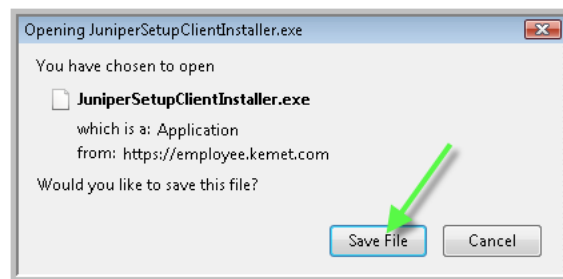

1.1.1 SSL Site Initialization

Once the site initializes, you should see the following on the header of the web page:

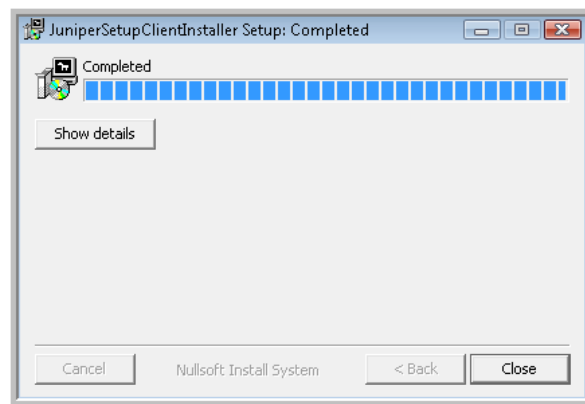

If this is the first time that you are accessing this page on your PC, you will be prompted to download a file named “**JuniperSetupClientInstaller.exe.**” Click Save File and save the file onto your desktop or other temporary location.

Note: You may have a prompt to Install instead of save, in this case, click Install.

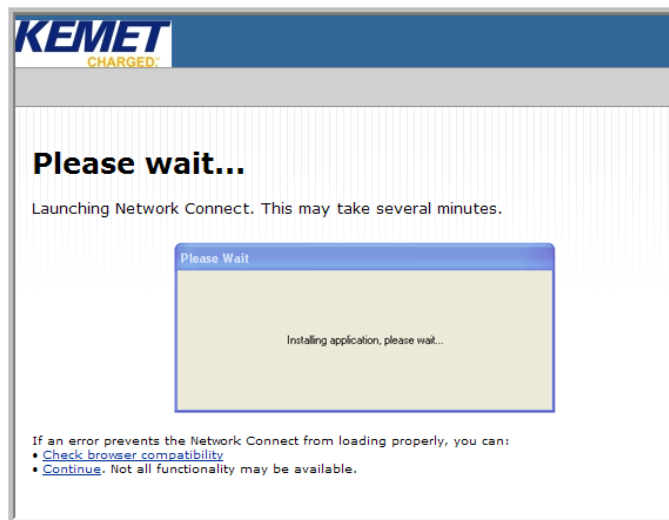

- a) Once the file is downloaded, navigate to the location that you saved the file and double click it to launch the installation. Follow the default prompts and when it is finished, click the Close button.

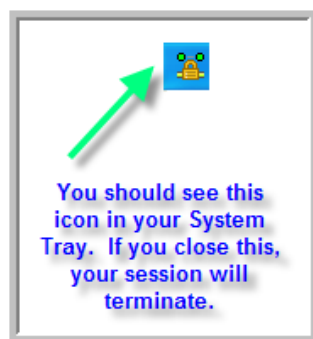

- b) The installer should bring you back to the web page and continue your login process. Enter your Username and Password.

The screenshot shows the login interface for the KEMET CHARGED Secure Access SSL VPN. At the top left is the KEMET CHARGED logo. Below it, the text reads "Welcome to the Secure Access SSL VPN". There are two input fields: "Username" and "Password". To the right of these fields is the text "Please sign in to begin your secure session." Below the input fields is a "Sign In" button.

- c) Once the page is re-loaded, you should see the dialog below:

- d) Once you have connected successfully, you should see a little icon in your **System Tray** that looks like the one below. Please do not close this icon because it will terminate your session.

- e) You are now connected and should be directed to a new webpage in your browser. Please follow the instructions from the web page.
