

# Sustainability Council

- The SC is comprised of executive and functional management representing multiple disciplines
- Has oversight responsibility to ensure internal awareness of and compliance to current, applicable, environmental legislation, regulations, and requirements and the development, maintenance, and continuous improvement of processes and systems in order to conduct its business in a manner that protects the health and safety of employees, customers, the public and the environment.
- The key sustainability principles of people, planet, and profit are the focus of the SC to ensure KEMET's continued growth and sustainability.
